Re: Application of BellSouth Telecommunications, Inc. to Provide In-Region  
InterLATA Services Pursuant to Section 271 of the Telecommunications Act of  
1996  
Docket No. 2001-209-C

Dear Mr. Terreni:

Enclosed for filing are the original and 10 copies of BellSouth Telecommunications, Inc.'s ("BellSouth's") performance data change Notification Reports for December 2005 and preliminary performance data change Notification Report for January 2006. These data change Notification Reports are being provided to inform the Commission of the changes BellSouth plans to make to its Performance Measures Analysis Platform ("PMAP") with December data, and previews the changes BellSouth is considering making for January data. A Data Disclosure Report would be filed at this time as well, if needed; however, there are no additional South Carolina validated data issues to be disclosed that affect performance measurement calculations for which a fix has not yet been scheduled.

Sincerely,

Patrick W. Turner

PWT/sgm

Enclosure

## PROPOSED DECEMBER 2005 DATA NOTIFICATION

BellSouth proposes making the changes described in this document to generate results for the December 2005 data month. Results for the December 2005 data month will be posted as follows:

Preliminary results	January 20, 2006
Final results	January 31, 2006

BellSouth provides Data Notifications each month in compliance with the Georgia Public Service Commission's Order of July 19, 2002. This order specifies that when BellSouth proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. BellSouth must also provide notification if it is considering making changes to the method of calculating data for the following month.

The "Affected Measures" described in this notice are those set forth in the Georgia Service Quality Measurement ("SQM") Plan, unless otherwise noted. All "Impact of Change" descriptions are stated at the measurement level, unless the sub-metric level is specified.

Releases may affect monthly data flows from the source systems (e.g., LEO, LESOG, LMOS, WFA, etc.) that PMAP uses to calculate measurements. BellSouth will make changes to PMAP to ensure that data continues to be correctly captured as Releases are implemented.

### Ordering Measurements

- (1) *Affected Measures:* O-3, O-4, O-7, O-9, & O-11

*Description of Change:* Currently for these measures, if PMAP cannot find the secondary timestamp, the primary timestamp is not used. (Example: For a LSR coming in from EDI to SGG to LNP, if the outbound timestamp is in EDI but not in SGG, PMAP will not use the timestamp from EDI to count the response.) BellSouth proposes to change this logic to use the primary timestamp regardless of the secondary timestamp. This proposed change was Item (1) on the Preliminary December Data Notification filed on October 3, 2005. (RQ5727)

*Impact of Change:* For August 2005 Regional Flow-Through data, 1,256 LSRs would be added to the current base of 376,435. The largest impact would be to UNE Loop Flow-Through, which would increase from 87.87% to 88.62%.

### **Provisioning Measurements**

- (2) *Affected Measures:* P-2, P-2A, P-2B, & P-5

*Description of Change:* Currently, BellSouth is not reporting Retail performance on the Non-Mechanized 12-Month Reports for Local Interconnection Trunks. BellSouth proposes to add the Retail performance to these reports. This proposed change was Item (8) on the Preliminary December Notification filed on October 3, 2005. (RQ6353)

*Impact of Change:* No change to results.

## **PRELIMINARY JANUARY 2006 DATA NOTIFICATION**

BellSouth is considering making the changes described in this document to generate results for the January 2006 data month. Results for the January 2005 data month will be posted as follows:

Preliminary results	February 20, 2006
Final results	February 28, 2006

BellSouth provides Data Notifications each month in compliance with the Georgia Public Service Commission's Order of July 19, 2002. This order specifies that when BellSouth proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. BellSouth must also provide notification if it is considering making changes to the method of calculating data for the following month.

The "Affected Measures" described in this notice are those set forth in the Georgia Service Quality Measurement ("SQM") Plan, unless otherwise noted. All "Impact of Change" descriptions are stated at the measurement level, unless the sub-metric level is specified.

Releases may affect monthly data flows from the source systems (e.g., LEO, LESOG, LMOS, WFA, etc.) that PMAP uses to calculate measurements. BellSouth will make changes to PMAP to ensure that data continues to be correctly captured as Releases are implemented.

### **Provisioning Measurements**

(1) *Affected Measures:* P-13B

*Description of Change:* BellSouth has identified a more efficient and accurate method of capturing SOCS data for monthly PMAP processing. (RQ6787)

*Impact of Change:* Minimal. For May 2005, in Georgia, the result would increase by .03%.

(2) *Affected Measures:* P-1, P-2, P-3, P-4, P-5 & P-9

*Description of Change:* Currently, Local Interconnection Trunk records, with an ACNA Code that does not appear in the Company Lookup Table are being set as BellSouth records. BellSouth proposes to modify the code to assign an error to invalid ACNA codes. (RQ7039)

*Impact of Change:* For August 2005, in Louisiana, 2 of 1014 trunks (0.197%) were incorrectly identified as BellSouth records. None were identified in Georgia or Florida. For September 2005, no records were incorrectly identified in the BellSouth Region.

### **Billing Measurements**

(3) *Affected Measures:* B-2

*Description of Change:* Currently, PMAP is double reporting affiliate CABS records in the BST Aggregate Average. BellSouth proposes to remove the double counting of these records. (RQ7625)

*Impact of Change:* For August 2005, BellSouth double counted 2 affiliate records in Georgia and 1 in Alabama. The measurement impact would change the BellSouth reported result from 3.91 to 3.72 in Georgia, and from 3.45 to 3.90 in Alabama.
